

Calendly Integration

Create/update a contact in Aritic PinPoint when an event is scheduled. Scheduled meeting will appear in you Aritic PinPoint calendar. You can check out the description of the event by mouse over on the particular meeting whether it's Cancelled or Rescheduled. For more information [click here](#).

You need to have Calendly account, [click here](#) to Sign up for Calendly.

1. Go to Integration tab in Calendly dashboard to get your API key.

The screenshot shows the Calendly dashboard interface. At the top, there is a navigation bar with a calendar icon, a trial status '6 days left on trial', and menu items: 'Dashboard', 'Event Types', 'Quick Start', and 'Help'. The user profile 'calendly.com/richagupta' is visible in the top right corner. A dropdown menu is open, showing options: 'Share Your Link', 'Calendar connection', 'Account settings', 'Users', 'Integrations' (highlighted with a red box), 'Billing' (with an 'Upgrade Now' button), and 'Get help'. Below the navigation, the main content area is titled 'My Calendly' and shows event filters for '15 Minute Meeting', '30 Minute Meeting', and '60 Minute Meeting'. It displays '9 of 9 Events' for 'Friday, April 27, 2018'. Three events are listed: a 15-minute meeting with 'Richa4' (rescheduled), and two 15-minute meetings with 'TestingCalendly'. A 'Logout' button is at the bottom of the dropdown menu.

2. Copy the API key.
